## Multi-Use Splitter

Product Features

■ Reduces actual and labor harness costs

■ Reduces number of harness connections increasing quality and durability

■ Eases troubleshooting of harnesses

■ Potted for a true IP67 rating

■ Operating & storage temp. rating -45°C to +85°C

■ 5 x DTM04-6P Deutsch Connectors

■ 0460-208-2090 / Deutsch nickel plated pins / 7.5 Amps per

■ 5 x WM-6P Deutsch Wedgelocks

■ Rugged ABS Housing

Multi-Use Splitter V99-5DLM6P

This 4 device splitter can be used for CAN protocols or POWER/GROUND distribution or some combination thereof. This module reduces harnessing costs by eliminating Y adapters and extended wire lengths by supplying a central connection point on the wire harness system for up to 4 devices. Ask about our other splitter configurations or have us build a custom spliiter module specific to your application.
